No changes were made to our Team Norms project at this time.

Team Norms:

1. Weekly meetings are held on Tuesdays and Thursdays at 12pm EST (9am MST before daylight savings, 10am MST after daylight savings) via Zoom. We will use Discord to communicate between meetings as needed. It is important that we have a set schedule so that we can plan other obligations around our meetings or know in advance when we will be unable to attend. This allows the group members to plan accordingly.
2. Outside resources like AI and other students' source code shall not be used. It is important that we do not use any of these sources so as to avoid cheating and plagiarism.
3. In the case of illness or conflicting obligations, communicate with the team early enough to allow other team members to complete assigned tasks. It is important to the group to communicate effectively and promptly, so that we are able to accomplish tasks on time.
4. Disagreements on important decisions must be handled professionally; if necessary, a team vote will be taken. It is important that we work as a cohesive team, but disagreements are bound to happen. It is appropriate to have a plan in place for when disagreements cannot be easily resolved.
